

COYOTE

Habitat: Shrubs and sagebrush

Scientific Name: *Canis latrans*

Photo: National
Park Service

PACIFIC NORTHWEST
FIRE ADAPTED COMMUNITIES

www.pnwfac.org

Fun Fact: A coyote eats a wide range of food. If it can't find mice or voles to eat, lizards, insects, or even garbage will do.

Fire Prevention Tip: People compost unwanted food, trash and yard waste. Composting is safer than burning it outdoors.
